NOTES

1. 'Original Codes': Complete unit and section markings were applied at the Brewster factory. The side codes (for example, '2-F-10') are indicated here as laid out by a contemporary chart. However, the chart shows codes to be applied from BuNo 1424 – 1433 as '3-F-9' to '3-F-18' consecutively, it is apparent that 1426 (which should have been '3-F-11') was never delivered to VF-3. Since the codes actually applied to this last batch of aircraft for VF-3 is in doubt, they have not been indicated.
